# DEVICES

Two different coloured buttons, modularity and freedom to customise: Arké responds to any installation and beauty demand. Lots of different devices: rocker, axial, infrared, all with the technological precision guaranteed by Vimar.

## ROCKER SWITCHES

The spring geometry of the moving contact of the mechanism performs a natural cushioning function, reducing its electrical recoils and wear, also thanks to a large increase in the quantity of silver of the contacts.

## BUTTON VARIANTS

Available in anthracite grey or white. Arké dresses in the colours that best suit contemporary interiors, offering great design freedom. For a two-tone of total look.

## CUSTOMISATION

Buttons with laser screen-printed or customised with Mylar labels laser-printed with symbols chosen from our customisation library, or requested by the customer. To clearly indicate the function associated to the control.

Movement of the button

## TECHNOLOGY

The transfer of the movement from the button to the mechanism is based on a worldwide-patented joint-pin system.

## AXIAL CONTROLS

Reliability meets beauty in this special technology which maintains the buttons in line whether the function is on or off. Every control can be customised with back-lit symbols.

## BACKLIGHTING

Buttons visible even in the dark, fitted with an efficient, low energy LED technology signalling unit underneath. For a fluid blue light, coordinated with the electronic device displays.

## ERGONOMIC CONTACTS

The metal plate in the Arké terminals is curved: a Vimar solution to hold the wire in place until the screw is tightened.

# ALL YOUR LIVING DESIRES ASSURED DOWN TO THE FINEST DETAIL.

## CONTROL

---

Lots of different controls: rocker, axial, infrared or radio frequency, installed anywhere, even on wooden and glass walls, no batteries required, all with the technological precision guaranteed by Vimar.

Axial controls

Home automation controls

Radio frequency controls

## COMFORT

---

Maximum comfort, managing lighting with universal dimmers to set just the right light or playing with coloured effects and the climate with timer-thermostats to set the required temperature, room by room.

3-module touch screen

Universal light dimmers

Timer-thermostat

## ENERGY EFFICIENCY

---

Thermostats that adjust the temperature to actual everyday needs; devices that control electrical loads and monitor consumption; programmable timer-switches that switch the devices on at the right time, to rationally manage all the energy in your home.

## SAFETY

---

Technical alarms, gas detectors, interlocked sockets, intrusion detection systems, emergency lighting: Arké watches over the home, night and day. And the people who live there feel safe and sound.

# BY-ME. HOME AUTOMATION ENSURING CONTROL, COMFORT, EFFICIENCY AND SAFETY. THROUGHOUT THE HOME.

---

## TOTAL SUPERVISING

Easy-to-surf technology used to control the different parts of the home, setting scenarios, adjusting the temperature, managing lighting and automated devices in each one.

## BURGLAR ALARM SYSTEM

It can manage the whole burglar alarm system, or any of the single parts it can be divided into.

## SOUND SYSTEM

Play and control music from an MP3 player, iPod or smartphone in any room.

## ENERGY EFFICIENCY

Offers an overview of the whole system, allowing you to monitor the consumption of every device.

Arké interacts with the By-me system, dialoguing continuously with the home to ensure constant monitoring and well-being, in line with individual needs. Coordinated functions that are easy to use with a high technological content, making everyday actions easier and simpler.

# WELL-CONTACT PLUS. AUTOMATIONS, ENTRY, HVAC AND LIGHTING, UNDER CONTROL IN EVERY BUILDING.

## TOTAL SUPERVISING

Automation, entry, HVAC and energy saving are managed by a single system developed to the KNX standard.

## ROOM CONTROL

Clients have immediate, intuitive supervision of each room, enabling their favourite comfort scenarios.

## CLIMATE CONTROL

Intelligent, customised temperature management in every room.

## ACCESS CONTROL

Different devices for managing entry to every office or hotel room, guaranteeing maximum security.

Arké solutions can be perfectly applied to hotels, offices, management centres, shopping centres and gyms. Managed in a simple, intelligent and coordinated manner with the Well-contact Plus system. This hardware, developed to standard KNX technology, can be incorporated in other technological systems in the building, for controlling lights, temperature, energy efficiency, entries and automations. For fully integrated design and technology.

### Building automation - Devices for DIN rail (60715 TH35) installation

■ 01510

4-channel digital input device, programmable for NO, NC and 120-230 V~ contacts, KNX standard

■ 01523

Actuator with 4 NO 16 A 250 V~ relay outputs, KNX standard

■ 01522

Input/output device, 4 NO 16 A 250 V~ relay outputs, 4 inputs for NO contacts, KNX standard

■ 01524

Actuator for 2 roller shutters, 16 A 250 V~ relay outputs, KNX standard

■ 01528

Dimmer, 2 inputs for 01530, 2 NO 16 A 250 V~ relay outputs, 2 1-10 V outputs, KNX standard

■ 01526

Dimmer 230 V~ 50/60 Hz for 2x300 W incandescent lamps, 2x300 VA ferromagnetic transformers, 2x300 VA electronic transformers, KNX standard

■ 01530

Light sensor for dimmer 01528, KNX standard, ceiling installation

■ 01515

Interface with 4 input or output programmable channels for LEDs, KNX standard

■ 01500

Power supply with Bus 30 Vdc 320 mA output, supply voltage 230 V~ 50/60 Hz, with decoupling coil, KNX standard

■ 01501

Power supply with Bus 30 Vdc 640 mA output, 30 V d.c. auxiliary output, supply voltage 230 V~ 50/60 Hz, with decoupling coil, KNX standard

■ 01504

Line coupler, KNX standard

■ 01540

USB interface, KNX B-type

## Customization

### Devices and cover plates customization

#### Information

- all devices, buttons and cover plates are customized depending on conditions described below;
- the following finishings of cover plates are not customizable: **Metal-Color: Matt graphite (.01 and .21); Metal-Elite: Gold (.07 and .27), Black chrome (.09), Black nickel (.10), Chrome (.28), Dark nickel (.29), Matt nickel (.30); Wood: larch (.43);**
- **Wooden cover plate** customisation: prices and quantities agreed with the commercial networks;
- if the required customisation is listed in the table "Standard symbols and wordings", indicate the relative code in addition to the required item code, **if it is not included in the table contact the Vimar sales office to check availability;**
- the customisation is **visible in the dark**: on the bottom of rocker controls and buttons, with the standard symbols available from the catalogue; in the centre on axial controls and buttons, with the standard symbols available from the catalogue; on the bottom of interchangeable rocker buttons (19031..., 19032... e 19033...) with customisable spaces; in the centre of interchangeable axial buttons (19131.0... e 19132.0...) with customisable spaces;
- the interchangeable rocker (19031..., 19032..., 19033...) and axial buttons (19131.0..., 19132.0...) can be customised by applying a Mylar label in the given space (the lower part for rockers and the centre for axial buttons).  
For large quantities, customisations not included in the "Standard symbols and wordings" or for laser-printed customisations, please contact the Vimar sales department.

#### Laser customization advantages

- indelible engraving that does not deteriorate over time;
- high-precision reproduction even of very fine lines and complex images;
- service available even for minimal quantities;
- possibility of ordering the same customization at different times with identical results.

#### The few limits of technology

- it is not possible to reproduce coloured images.

#### What to supply

- a printout of the image to be reproduced, in black-and-white line drawing scaled 2 or 3 times larger than the finished size;
- an image in EPS, TIFF or JPEG format of the subject to be reproduced.

#### Things to avoid

- do not provide photocopies;
- do not fax the image to be reproduced, because the low definition of the fax makes it impossible to reproduce the customization with the high quality of laser system.

#### How to proceed

- enclose (without paper clips, staples or adhesive tape) or send the image to be reproduced;
- deliver all the documentation to your area wholesaler/distributor, who will then forward it to Vimar.
